Project Overview

Sunderland-based Grace House North East Children's Hospice provides care and support to local children with life threatening illnesses.

Opus Building Services were employed by Gentoo Construction Ltd to provide the complete package of mechanical, electrical and plumbing, heating and ventilation installation services. A new development, works included the installation of services from general power and lighting to CCTV and domestic services.

OPUS were meticulous in ensuring all works were carried out to meet the clients' requirements and to an exceptionally high standard.

Services included:

- BMS
- LTHW System
- Heating System
- Domestic Services
- Drainage
- Testing and Commissioning
- Underfloor Heating
- VRF Cooling
